RECORDLY

Executive reporting that finance trusts: start small, prove it, then decide

A two-week data assessment on your real quote, contract and machine feeds, then a first executive dashboard. €30,320 fixed total, excl. VAT. Standard terms.

Proposal to Sanni Holopainen, Head of Data and Digital Development · Recordly Oy · Helsinki

The proposal in one page

Outcome	Monthly executive reporting from one automated, reconciled source, replacing the manual Excel spreadsheets
Approach	**Phase 0:** 2-week assessment of your feeds. **Gate:** you decide. **Phase 1:** first executive dashboard in 6 weeks. Nothing else is committed.
Team	Two senior consultants plus an architect for 2 days. No crew, no project office.
Built on	Your Dynamics 365, existing cloud data setup and BI tool. **No new platforms, no new licences.**
Ownership	Code, models and Finnish documentation live in your repositories from day one
Total price	**€30,320 fixed** (32 person-days), excl. VAT. You can stop at the gate and pay for Phase 0 only.
Contract	Your standard terms. No contractual deviations.

Recommended solution: one reconciled source for executive KPIs

STEP	WHAT HAPPENS	CHECK
1 · Map the feeds	Quotes, customer contracts and machine production data in Dynamics 365 and the current data setup are mapped field by field	Every field has a source, owner and definition
2 · Align definitions	Machine metrics and group-ledger definitions agreed with Finance in a one-page glossary	Finance signs off each definition
3 · Reconcile automatically	Machine production and delivery figures matched to ledger postings on every load	Differences flagged by order and machine, so controllers see them **before month-end close**
4 · Executive dashboard	6–8 KPIs in your BI tool, each drillable down to the ledger entry	KPI list confirmed in week 1

Out of scope: the sales-function reporting (decided at the gate), new tools, AI features, replacing Dynamics 365.

Rollout plan: assess first, commit later

PHASE	WHEN	WHAT	GATE OR RESULT
0 · Assessment	Weeks 1–2	Profile the quote, contract and machine feeds on real data; map gaps; draft glossary	**Go / no-go.** Written findings: what is clean, what is a mess, what it costs to fix
1 · Executive dashboard	Weeks 3–8	Build steps 3 and 4 on the feeds that passed; pair with your people	First executive dashboard replaces one monthly Excel report
Later	After week 8	Sales-function reporting, scoped and priced separately **only if you want it**	Not part of this price

> **Honest unknown:** the state of the quote and contract feeds. We can't know it before Phase 0. If they are worse than expected, we tell you at the gate and propose a smaller scope instead of building on sand.

Delivery team: small, and built so you need us less

ROLE	EXPERIENCE	CERTIFICATIONS	DAYS
Senior Data Engineer (lead)	10 years; ERP and machine-data integration	Microsoft Certified: Azure Data Engineer Associate	19
Senior Data Analyst	8 years; executive BI and finance reporting	Microsoft Certified: Power BI Data Analyst Associate	11
Data Architect	14 years; data models and reconciliation design	Microsoft Certified: Azure Solutions Architect Expert	2

All Finnish native speakers, available from contract signature. Certifications match Microsoft cloud; we confirm your cloud in Phase 0.

Enablement, not dependency: your person joins the work from week 1 (pairing, code reviews). Everything is documented in Finnish and sits in your repositories. A future Ponsse hire can take over without us. You may recruit our consultants after 12 months without a fee.

Price and terms

ROLE	PERSON-DAYS	DAY RATE (8 H)	TOTAL
Senior Data Engineer	19	€920	€17,480
Senior Data Analyst	11	€1,000	€11,000
Data Architect	2	€920	€1,840
Fixed total, excl. VAT	**32**		**€30,320**

- **Fixed price:** hours above plan are Recordly's risk, not yours
- **Invoicing:** Phase 0 on completion of the assessment; the remainder on delivery of the executive dashboard. Stop at the gate and you pay only Phase 0.
- **Included:** travel, documentation, architect review. **No licences:** your existing platform and BI tool.
- **Contract:** your standard agreement. No contractual deviations.
