RECORDLY

Answers from your own guidelines, in Finnish, at a capped cost

An internal RAG assistant in your chat tool for 260 colleagues. €23,680 fixed, excl. VAT. Standard agreement, no deviations.

Proposal to Tiina Vartiainen, Development Manager for Data and Analytics · Recordly Oy · Helsinki

Technical solution

HOW IT WORKS

- **Question in your chat tool** → search across guidelines, safety protocols and operating documents → **answer with the source document, section and date**
- **Finnish first:** Finnish-language embeddings, tested on Finnish compound words and utility terms
- **Safety protocols:** if no source supports an answer, the assistant says so and names the document owner. It never guesses.
- Document access follows existing rights; no new user directory
- Built in your public cloud and current data setup. No new platform.

OUT OF SCOPE

- Writing or editing documents
- Real-time data from SCADA or plant control systems
- New licences or a separate AI product
- Any change to production systems during Q1

Past problems, answered

WHAT WENT WRONG	OUR SAFEGUARD
Vector refresh jobs ran unchecked and billing spiked	Refresh only changed documents, nightly at most. Hard monthly budget cap with an alert at 50% and 80%, and a kill switch that pauses refresh at the cap. Cost per question is reported monthly.
Crews tune out English presentations	All workshops, user guide, runbooks and training in **Finnish**. Short sessions held at the plant.
Q1 winter heating peak	Production release before year end. **No changes Jan to Mar**; only read-only support. Improvements resume in April.

Plan: live before the Q1 freeze

WEEK	WORK	GATE
1	Document inventory, access rights, cloud and chat tool confirmed, cost cap agreed	
2–3	Build ingestion and Finnish search on a pilot set	**Go/no-go:** 50 real Finnish questions from your staff; answer and source must both be right on 85%
4–5	Full document set, chat tool integration, cost alerts	
6	Pilot with maintenance crews, Finnish training	Release approved by you
7+	Live before year end, then Q1 freeze	Your team already runs refresh and caps

Honest unknown: document quality (scans, old formats). Week 1 inventory decides what is included.

Team: three roles, from contract signature

ROLE	CERTIFICATIONS	LANGUAGES	AVAILABILITY
AI/ML Engineer (lead), 9 yrs	Cloud ML engineer certificate for your cloud (Azure AI Engineer Associate, AWS ML Engineer Associate or Google Professional ML Engineer), confirmed in week 1	Finnish, English	100% from contract signature
Data Engineer, 8 yrs	Cloud data engineer certificate for your cloud, dbt	Finnish, English	100% from contract signature
Solution Architect, 12 yrs	Cloud architect certificate for your cloud	Finnish, English	Part-time from contract signature

Your team may require replacement of any consultant. Your staff co-build from week 2.

Price and terms

ROLE	DAYS	DAY RATE	TOTAL
AI/ML Engineer	17	€960	€16,320
Data Engineer	5	€920	€4,600
Solution Architect	3	€920	€2,760
Fixed total, 25 person-days			**€23,680 excl. VAT**

- Cloud usage is paid by you, capped as above. No licences from us.
- **Standard agreement, no deviations.** Right to recruit after 12 months and replacement right accepted. Prices firm for 9 months.

> Fixed price: effort above plan is Recordly's risk.
