RECORDLY

Legacy Application and Reporting Modernisation

A preliminary proposal from Recordly: three scope options, so we can size the work to your budget before the full offer

Preliminary proposal to Ronja Lehtomäki, Head of Digitalization and Analytics · Recordly Oy · Helsinki

What we will deliver

- **Reporting and legacy application inventory with ROI per item**
- **Migration of the highest-ROI reports to your BI tool, aligned with the new ERP**
- **No production changes in Q1: build in Q1, go-live in April**
- Senior team, all workshops and documentation in Finnish, available from contract signature
- Built on your existing stack, with no new licences unless you choose them

Three options, priced transparently

OPTION	EFFORT	SCOPE	FIXED PRICE (EXCL. VAT)
Focused	15 person-days × €920	Reporting and legacy application inventory with ROI per item	€13,800
Core	30 person-days × €920	Reporting and legacy application inventory with ROI per item; Migration of the highest-ROI reports to your BI tool, aligned with the new ERP	€27,600
Full	55 person-days × €920	Reporting and legacy application inventory with ROI per item; Migration of the highest-ROI reports to your BI tool, aligned with the new ERP; No production changes in Q1: build in Q1, go-live in April	€50,600

Rates: senior data engineer / architect €920 per day. Fixed price per option; any effort above plan is Recordly's risk.

Which option fits your budget?

Tell us which option fits your approved budget, or the range you're working with, and we'll return a full proposal sized exactly to it. Concise and pragmatic: you pick the scope that fits your budget.
